Index of Subjects

Volume 3, 1987

Abscess, tuberculous, multiple, ultrasonographic delineation, 141
Abstract review, 199, 251, 302
American Registry of Diagnostic Medical Sonographers, and SDMS—which is which? (educational forum), 46
Aneurysm
  femoral artery, pseudo-
    and arteriovenous fistula as complication of femoral artery catheterization, 151
    deep venous obstruction resulting from, 234
  of the neck, with megaureter-megacystis syndrome (case report, 29
ARDMS. See American Registry of Diagnostic Medical Sonographers

Binary numbers refresher, 154
Bladder diverticulum, mimicking an ovarian cyst (case report), 88
Book reviews
  Atlas of Normal Fetal Ultrasonographic Anatomy, 155
  Atlas of Ultrasonographic Artifacts and Variants, 156
  Clinical Diagnostic Ultrasound, 155
  Ultrasound Annual, 156

Carcinoma, renal cell (case report), 136
Cardiovascular technology (editorial), 59
Catheterization, femoral artery, false aneurysm and arteriovenous fistula complicating, 151
Choriocarcinomas, testicular, sonographic appearance (case report), 229
Circulation, lower extremity, assessment using Doppler ultrasonography and segmental aterial pressures (original article), 117
Coronary artery disease, two-dimensional echocardiography in, 61
Corpus callosum, agenesis (case report), 98
Cyst
  ovarian, bladder diverticulum mimicking (case report), 88
  urachal, infected (case report), 188

Diagnostic challenge (case reports)
  Corpus callosum agenesis, 98
  false aneurysm of femoral artery and arteriovenous fistula as complication of femoral artery catheterization, 151
  magaureter-megacystis syndrome with bilateral hydronephrosis and bilateral vascular aneurysms of the neck, 28
  urachal cyst, infected, 188
  Wharton's jelly, excessive amount, 27
Digital memory refresher, 249
Ductus arteriosus, patent, in neonates, real-time spectral analysis of brachial Doppler signals, 131

Echocardiography
  teaching file, developing (educational forum), 103
  two-dimensional
    coexisting cor triatriatum and atrioventricular canal diagnosed by, 242
    in coronary artery disease, 61
Editorials, 3, 59, 115
Education
  task and instructional analysis, 152

Fertilization, in vitro, ultrasonically guided perurethral transvesicle aspiration of follicles in, (original article) 166
Fetus
  biparietal diameter, estimating gestational age by, 33
  gestational age, simplified method for estimation by biparietal diameter measurement, 33
  hemangioma, calvarial capillary, prenatal visualization (case report), 286
  thorax, cystic abnormalities, 172
  Trisomy 18 syndrome, prenatal sonographic findings (case report), 86
Fistula, arteriovenous, as complication of femoral artery catheterization, 151

Gastric tumors, proposed new sonographic sign to aid in further differentiation, 21

Heart
  cor triatriatum and atrioventricular canal diagnosed by two-dimensional echocardiography, 242
  coronary artery disease, two-dimensional echocardiography in, 61
  duplicated vena cava, sonographic detection (case report), 91
Hemangioma, calvarial capillary, fetal, prenatal sonographic visualization (case report), 286
Hydatidiform mole, parietal, ultrasound diagnosis (case report), 91
Hydronephrosis, bilateral, with megaureter-megacystis syndrome (case report), 29

Kidney
  carcinoma (case report), 136
  cystic disease, pediatric (original article), 219
  horseshoe, ultrasonography of, 38
  sonographic appearance of sickle cell disease in, 14

Megaureter-megacystis syndrome, with bilateral hydronephrosis and bilateral vascular aneurysms of the neck (case report), 29
Methyl methacrylate as moldable, implantable biomaterial for use with ultrasound transducers, 182

Osteogenesis imperfecta type II, 275

Paraganglioma, ultrasonic demonstration (case report), 289
Product review, 197
Prostate, cancer, transrectal ultrasound in follow-up, 177
Pylorus, hypertrophic stenosis, infantile: role of sonography, 269

Research
  in diagnostic ultrasound, designing and conducting, 4

Osteogenesis imperfecta type II, 275

Paraganglioma, ultrasonic demonstration (case report), 289
Product review, 197
Prostate, cancer, transrectal ultrasound in follow-up, 177
Pylorus, hypertrophic stenosis, infantile: role of sonography, 269

Research
  in diagnostic ultrasound, designing and conducting, 4

Sample, W. Frederick, Student Excellence Award
Literature Review Category winners, 61, 69
Original Research Category, winners, 14,21
Scoliosis, quantitative sonographic assessment and its correlation with radiographic findings, 78
SDMS. See Society of Medical Sonographers
Sickle cell disease, renal sonographic appearance, 14
Society of Diagnostic Medical Sonographers, and ARDMS—which is which? (educational forum), 46
Sonographer
anatomy of (issues), 42
vs. physician (issues), 189
Sonologist, profile: designing a flawless leader (issues), 293
Spectral analysis, of brachial Doppler signals in neonates with patient ductus arteriosus, 131
Spleen, sonography of, 69
Statistics, refresher, 123

Teaching, good, characteristics of (educational forum), 299
Terminology review, 51
Testicles, choriocarcinomas, sonographic appearance (case report), 229
Testing, writing questions (educational forum), 49, 194
Testis, fractured, ultrasound of, 239
Thorax, fetal, cystic abnormalities, 172
Training, cross- (issues), 99
Transducers, methyl methacrylate as moldable, implantable biomaterial, 182
Trisomy 18 sydrome, prenatal sonographic findings (case report), 86
Tumor, gastric, a proposed new sonographic sign to aid in further differentiation of, 21

Ultrasonic Physics and Instrumentation for Sonographers
excerpt: Density, Elasticity, and Speed, 281
Ultrasonographer, anatomy of, 42
Ultrasound
diagnostic, designing and conducting research in,
Doppler, and segmental arterial pressures to assess arterial circulation in the lower extremity (original article), 117
on-time, 36

Vena cava, duplicated, sonographic detection, 95

Wharton's jelly, excessive amount (case report), 27
